It was uninsured, as it was a worthless old structure and Mr. Wilson contemplated its removal. Some horses and cattle in the stable were removed in safety. The loss to Mr. Staub upon his stock of hay, grain etc., will reach one or two hundred dollars, upon which there is an insurance of \$500 in the £ na of this city. The building is the property of Dr. John Frissell, and is damaged fully \$300, if not much more, by fire and water. She showed that she had lost none of that power to hold the mirror up to nature which wen her her fame. The personation was delightful, and her support, generally speaking, is above the average. KIDNEY AND LIVER CURE.

To the Readers of the Intelligencer. It is well known that hot weather brings sickness and that the greatest care is necessary to prevent disorders even on the part of those most healthy. What there is in the heat that abould cause disease cannot certainly be known, but cholers, dysentery, debility, lassitude, vertigo and many other sudden and dangerous maladies come every season and cause great suffering and thousands of deaths. Few people go through the Summer without unpleasent symptoms. The mouth becomes dry and parched, the tongue furred w th white, the pulse irregular, the head feverish, the body cramped and imps swollen and tired. I addes especially, with their natural delicacy and tendency to female troubles find the hot weather almost unbeerable. while little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and well known physician of New York asserts as his positive belief that more than three-sourchs of all so-called Summer complaints arise from disordered secretions, and that these secretionary organs, which, by being out of order cause so much trouble, are the kidneys and liver. The brain controls the life, but the lower part of the body rules the heath.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus preven the many dangers of the Summer. That vegetable (a.West India leaf,) is used as the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are deranged. For all uniary complaints of either sex it is infallible. For all billious troubies it is certain. For the bot season it is invaluable and every person of care and intelligence should not fail to keep Warner's safe Kidney and Liver Cure near at hand, and use it upon the approach of the slightest symptoms
It may save your life or that of some dear friend; it will certainly prevent much suffering. It is for sale by druggists in all parts of the world; be careful and take no other. "A word to the wise is sufficient."
